Abstract Submission

for **ETCC2020 - European Technical Coatings Congress**,
taking place on **2-4 September 2020 in Krakow (Poland)**

Please submit the abstract of your presentation; lecture or poster

Important dates: - Abstract submission, deadline: **30 January 2020**
- Notification of abstract authors: **30 March 2020**

For detailed information please visit: www.etcc2020.org/en/congress/application-docs
Presentations could be published at "Progress in Organic Coatings" (Elsevier),
(www.journals.elsevier.com/progress-in-organic-coatings)

Please consider Early Registration and save up to 320 €

The **ETCC2020** presentations will refer to the latest scientific
and technical achievements for: **paints, coatings,**
printing inks, construction materials, and adhesives

Topics of papers in this range include e.g.:

- **Advances in science of paints, coatings, printing inks, adhesives and construction materials**
- **Polymers and other raw materials usage**
- **Chemical composition and products specifications**
- **Progress in processing and production**
- **Application methods and application equipment**
- **Thermal and weathering degradation of paints and coatings**
- **Products and process legislation**
- **Environment, safety and health issues**
- **Equipment and production lines**
- **Measuring and testing, quality systems**

ETCC2020 is one of the most prestigious and most important technical and scientific events, creating a platform and a meeting point of industry and science, represented by companies, institutes and universities. During the three days of the event there will be plenary presentations and 3 – 4 parallel sessions, poster presentations, an exhibition and seminar "Summer School" with lectures dedicated for young scientists. • Experts representing the largest manufacturers, their suppliers, institutes, and universities across Europe as well as other countries worldwide, will be giving their presentations. • The congress opens up great opportunities for international co-operation and of collecting unique knowledge about the newest materials, products, processing, equipment, research and testing. • Krakow is the leading centre of science and art, with 23 universities and 200 000 students. This City is very easily accessible by plane (flights from the majority of European Airports), motorways (at the crossing of West-East and North- South) and by trains. For more detailed information please visit at www.etcc2020.org •

The congress has 70 years of tradition!. Since the year 1950 FATIPEC regularly organises scientific and technical congresses. In 2012, the existing traditional "FATIPEC Congress" was continued with the now well-known name "ETCC – European Technical Coatings Congress". As FATIPEC took over the management of the Global Federation CSI – Coatings Societies International (www.csi-coatings.org) - it will support the involvement of specialists of our working area from around the world at ETCC2020.

Should you have any questions, please do not hesitate to contact:
